8 years of experience in product design and design operations, delivering over 30 digital products.

■ Summary

- Designed and launched 30+ web/mobile products across commerce, community, AI, and enterprise workflows.
- Collaborated with global brands like Samsung, SM Entertainment, and Lotte to deliver digital products.
- Active mentor supporting junior designers through ADPList and KDD communities.
- Co-launched a Korean community app, reaching 1,500+ users and securing ad clients within 3 months.
- Hosted AI hackathons and hands-on design workshops for product designers.

■ Professional Experience

Product Manager / Product Designer (Bero AI / 2025 - 2026)

Led UX strategy, product flows, and market validation for an AI-powered dog care and translation app, turning smart-collar behavior data into meaningful care guidance for owners.

- Led product strategy and UX planning for a multimodal AI platform interpreting dog behavior and care needs.
- Defined core UX flows across avatar, chat, map, training, and gamified care features.
- Structured behavior and emotion labels to support AI-driven interpretation and personalized guidance.
- Developed pre-order pricing and benefit packages for early market validation.

Project Manager / Design Lead (Rise Partners / 2024 - 2025)

Led digital operations with a focus on delivery quality, team accountability, and thoughtful client communication across every project touchpoint.

- Established and led a digital agency division, overseeing business modeling, branding, and internal workflows.
- Directed cross-functional teams for mobile and web app development (community platforms, internal tools).
- Led IT B2B proposals, expanding client pipelines through sales engagement and strategic pitching.

Project Manager / Design Manager (Brickmate / 2020 - 2023)

Led design operations with a focus on team growth, creative quality, process efficiency, and on-time delivery for global client projects.

- **Managed \$1.2M+ in product deliveries for Samsung, SM Entertainment, Lotte, and Danal.**
- **Played a key role in the company's \$10M M&A through design operations, workflow standardization.**
- Led key design concept development across major projects, setting visual direction and quality standards.
- Built team-wide onboarding, hiring, and training processes to improve creative consistency.

Product Owner / Design Lead (Butler / 2023)

Focused on making a complex service easier for users while improving team workflows and delivery clarity.

- Simplified complex product through direct UX improvements, making the service more accessible to general users.
- Increased user retention by 40% through landing and home screen redesign.
- Implemented Jira and Notion to improve task management, documentation, and team workflows.
- Developed a hybrid Waterfall process for improved delivery clarity.

UI/UX Designer (Online commerce company / 2018 - 2020)

Built a strong foundation in digital design through hands-on work across e-commerce, educational web design, visual assets, and video content production.
